Southern Transatlantic Connections and the Cold War

The TSA is a broad network of scholars who use the ‘transatlantic’ as a frame of reference for their work in a variety of disciplines, including (but not limited to): history, politics and international relations, and literary studies. All transatlantic-themed paper and panel proposals from these and related disciplines are welcome.

Special subject theme:

'Mayflower 400: Atlantic Crossings'

The TSA is pleased to join the University of Plymouth, England in welcoming proposals that seek to place the Mayflower voyage within an Atlantic context, and that offer an opportunity to better understand, interrogate and develop the political, religious, scientific and economic forces which shaped the Atlantic world in this historical moment and beyond. In commemorating 'Mayflower 400', we seek to uncover and enable voices and identities which forged, or were forged by, Atlantic crossings of many kinds. The 2021 TSA conference thus welcomes scholars focusing on the Mayflower voyage and its legacies, or on early America from historical/cultural/literary perspectives.

Conference Format and COVID-19

In light of impediments posed by the COVID-19 pandemic on mass gatherings, international travel and university finances, the current intention is for the TSA 2021 conference to take place in a blended format, with some aspects on site in Lisbon and others online. If the situation requires it, all aspects of the conference will take place online. The TSA Management Committee and 2021 conference organisers will continue carefully monitoring the COVID-19 situation and will follow guidance from relevant national health agencies. The precise format of the conference will be determined in the coming weeks and all participants will be informed. Our intention is to ensure, as far as possible, that restrictions caused by the pandemic do not act as an impediment to anyone wishing to participate in the conference.

Submissions to the 2020 Call for Papers

At its annual meeting in 2020, the TSA Management Committee agreed to honour acceptances of papers and panels submitted for the 2020 conference for the TSA conference in 2021, should those concerned wish to attend. We are now asking that all those wishing to present at the conference in 2021 submit papers and panels to the current conference email address (see below), whether your submission for 2020 was accepted or not. If you received an email accepting your previous submission, please make a note of this in the body of your email and your submission will be automatically accepted.

Travel Grants

The TSA particularly welcomes proposals from new members and junior scholars. Travel grants of £150 each are available to support early career scholars presenting a paper at the conference. As a result of funding from the Halle Foundation, the TSA is able this year to offer a number of additional travel grants to support early career scholars presenting a paper on any aspect of relations between the United States and Germany.

If wishing to apply for a travel grant, applicants should indicate this in the body of the email when submitting their paper or panel. If papers are believed to qualify for Halle Foundation funding, this should be indicated. In addition to the materials requested above, travel grant applicants should include a brief statement explaining why it is important for them to attend the TSA conference. For further details about TSA travel grants, see the TSA website: www.transatlanticstudies.com.

Extended deadline for panel and paper proposals: 20 March 2021
